October 20, 2006

To Whom It May Concern:

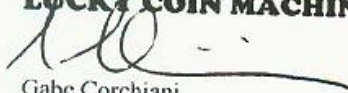

After the devastation caused by Hurricane Katrina, Lucky Coin Machine Company has relied heavily on Epco Construction to complete numerous construction jobs. These jobs ranged from the installation of modular partitions to gutting and completely renovating buildings destroyed by Katrina.

Epco consistently completed the work on time and within the budget allowed. David and Randy certainly run a professional organization and can be counted on to do a first-class job.

I would certainly give Epco Construction my highest recommendation for any construction needs you have.

Sincerely

LUCKY COIN MACHINE COMPANY

Gabe Corchiani
President
